Bind Vehicle Guidance for iSmart App

1. Download iSmart App in your App store.

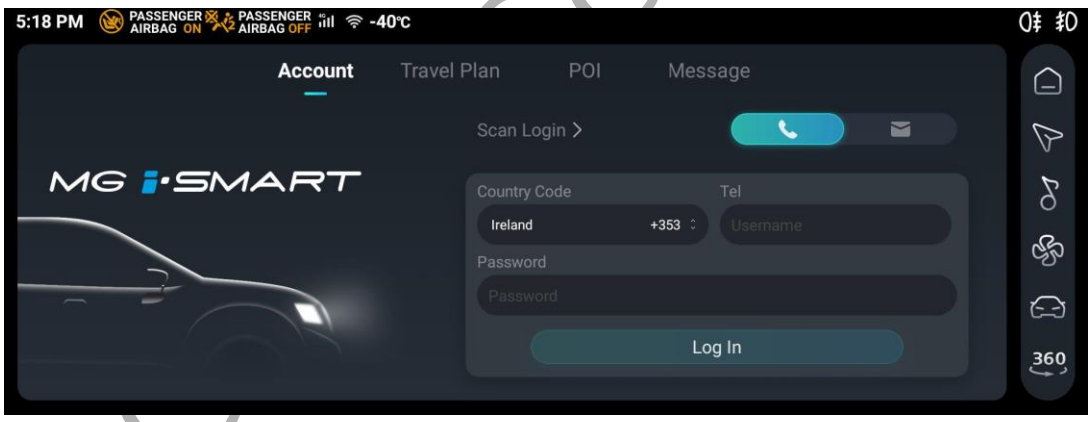

2. Register in the App store.

3. For iSmart connected cars, the entrance is as below.

Select 'User' in the app list on HU.

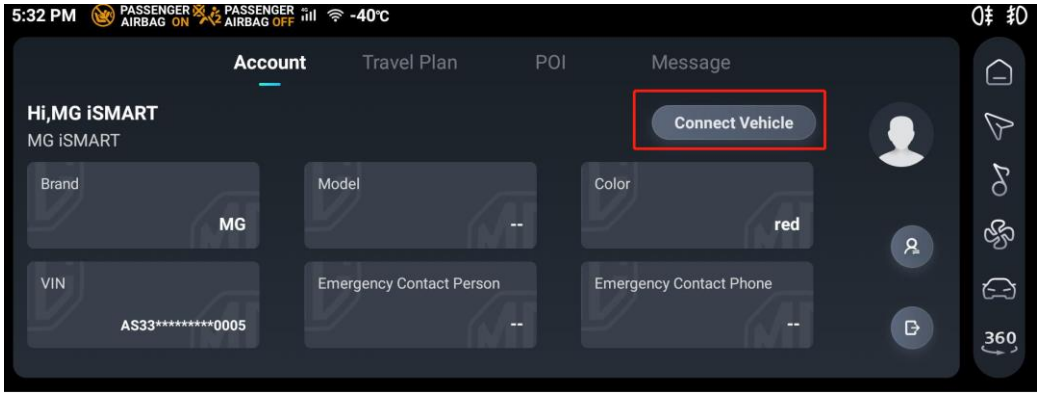

4. Login with your own account.

5. Connect the car.

After login, it will show as below. Click Connect Vehicle button in the screen.

Then, the guidance page will appear,
There are 2 QR code on the screen. One is for iSmart Mobile app, the other is QR code for connection.

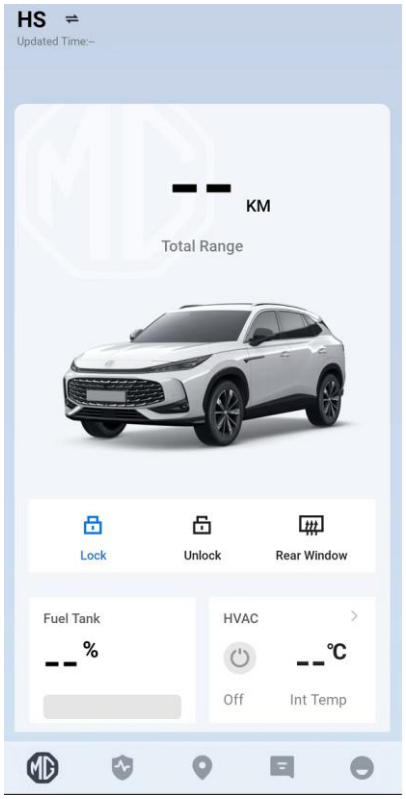

Open iSmart App, there is one button named as 'To bind'.

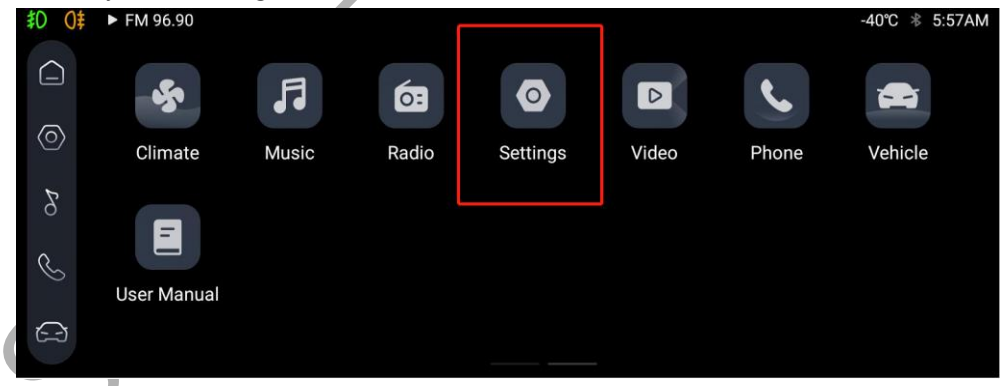

Scan the right QR code to bind the car.
After successfully bind, it will show as below.

T Copyrig

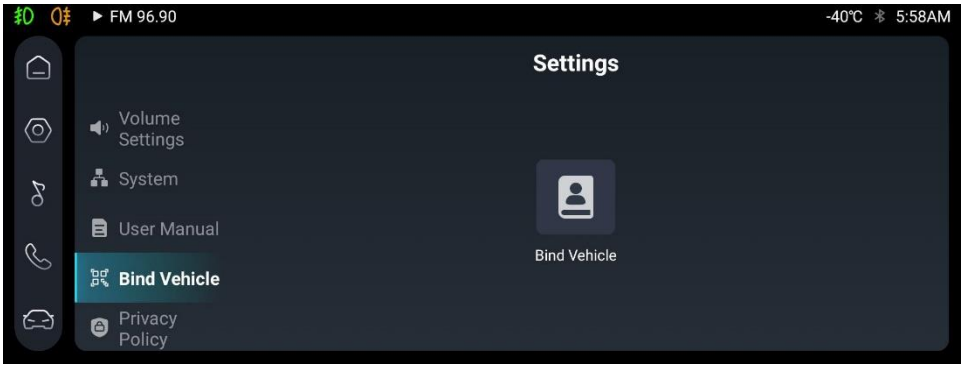

If you have a Color radio lite car, the connect entrance is different.

1. Go to System Settings.

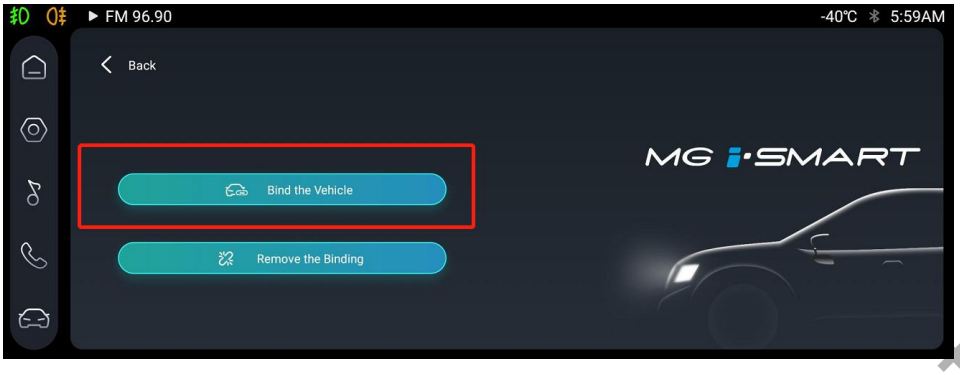

2. Find 'Bind Vehicle' tab

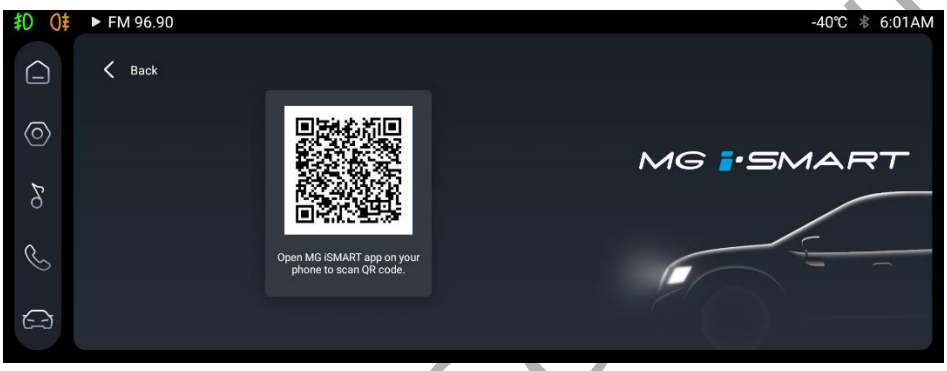

Copyright

3. Bind the vehicle

4. Scan the QR code via iSmart App

The usage of iSmart App keeps the same.
